### SUMMARY

I am a motivated pre-final year B.Tech student with hands-on experience in full stack development. Proficient in React.js, Express.js, Tailwind CSS, and some PHP, I am eager to leverage my skills to create scalable web applications and solve complex problems. My projects demonstrate my ability to integrate frontend and backend technologies effectively.

---

### EDUCATION

Diploma and B.Tech, Computer Science and Engineering  
ITM(SLS) Baroda University, Vadodara, Gujarat

May 2023 – April 2026

### EXPERIENCE

1. **OPENRAG :-**

Independently designed and developed a responsive website for the company, featuring product showcases, event listings, and a client interaction portal.

Link: <https://www.openrag.in/>

Jan2025 – Feb 2025

2. **Axamine AI :-**

Developed and maintained scalable backend APIs using modern frameworks and best practices.

Link: <https://www.axamine.in/>

May 2025 – Present

### PROJECTS

1. **GHOSTSAFE :-** Secure your personal data

Developed a secure web application focused on protecting user data and privacy. Implemented authentication and encryption to ensure personal data remains safe.

Link: <https://ghost-safe.vercel.app/>

2. **FOOD DELIVERY :-** Full stack app for managing food dishes.

Built a responsive full-stack application allowing users to register, log in, and manage food items. Emphasized smooth UI/UX with custom styling using CSS.
